

WEBINAR

You are warmly invited to join us for a webinar organized by Arcane

Interfacing Biocatalysts with 3D Electrodes for Semi-artificial photosynthesis

ARCANE
bio-driven chemistry

PLENARY SESSION: Prof. Erwin Reisner

MAY 19th
at 10am

Professor of Energy and Sustainability at University of Cambridge (UK)

at 11am

Anthonin MOINEL
SYMMES & LCBM

Developing novel push-pull organic dyes and dye-catalyst assemblies for hydrogen production in dye-sensitized NiO photocathodes

at 11:20am

Baptiste DAUTREPPE
DCM & SYMMES & MEM

Bio-inspired nanocomposite based on earth abundant metal oxides as efficient materials for water oxidation

Free participation upon registration by email:
